	1000			3	500kg
	1100			4	800kg
1000	900			3	750kg
	1000			3	500kg
	1100			4	800kg
1150	900			3	750kg
	1000			3	500kg
	1100			4	800kg

2. Features and advantages

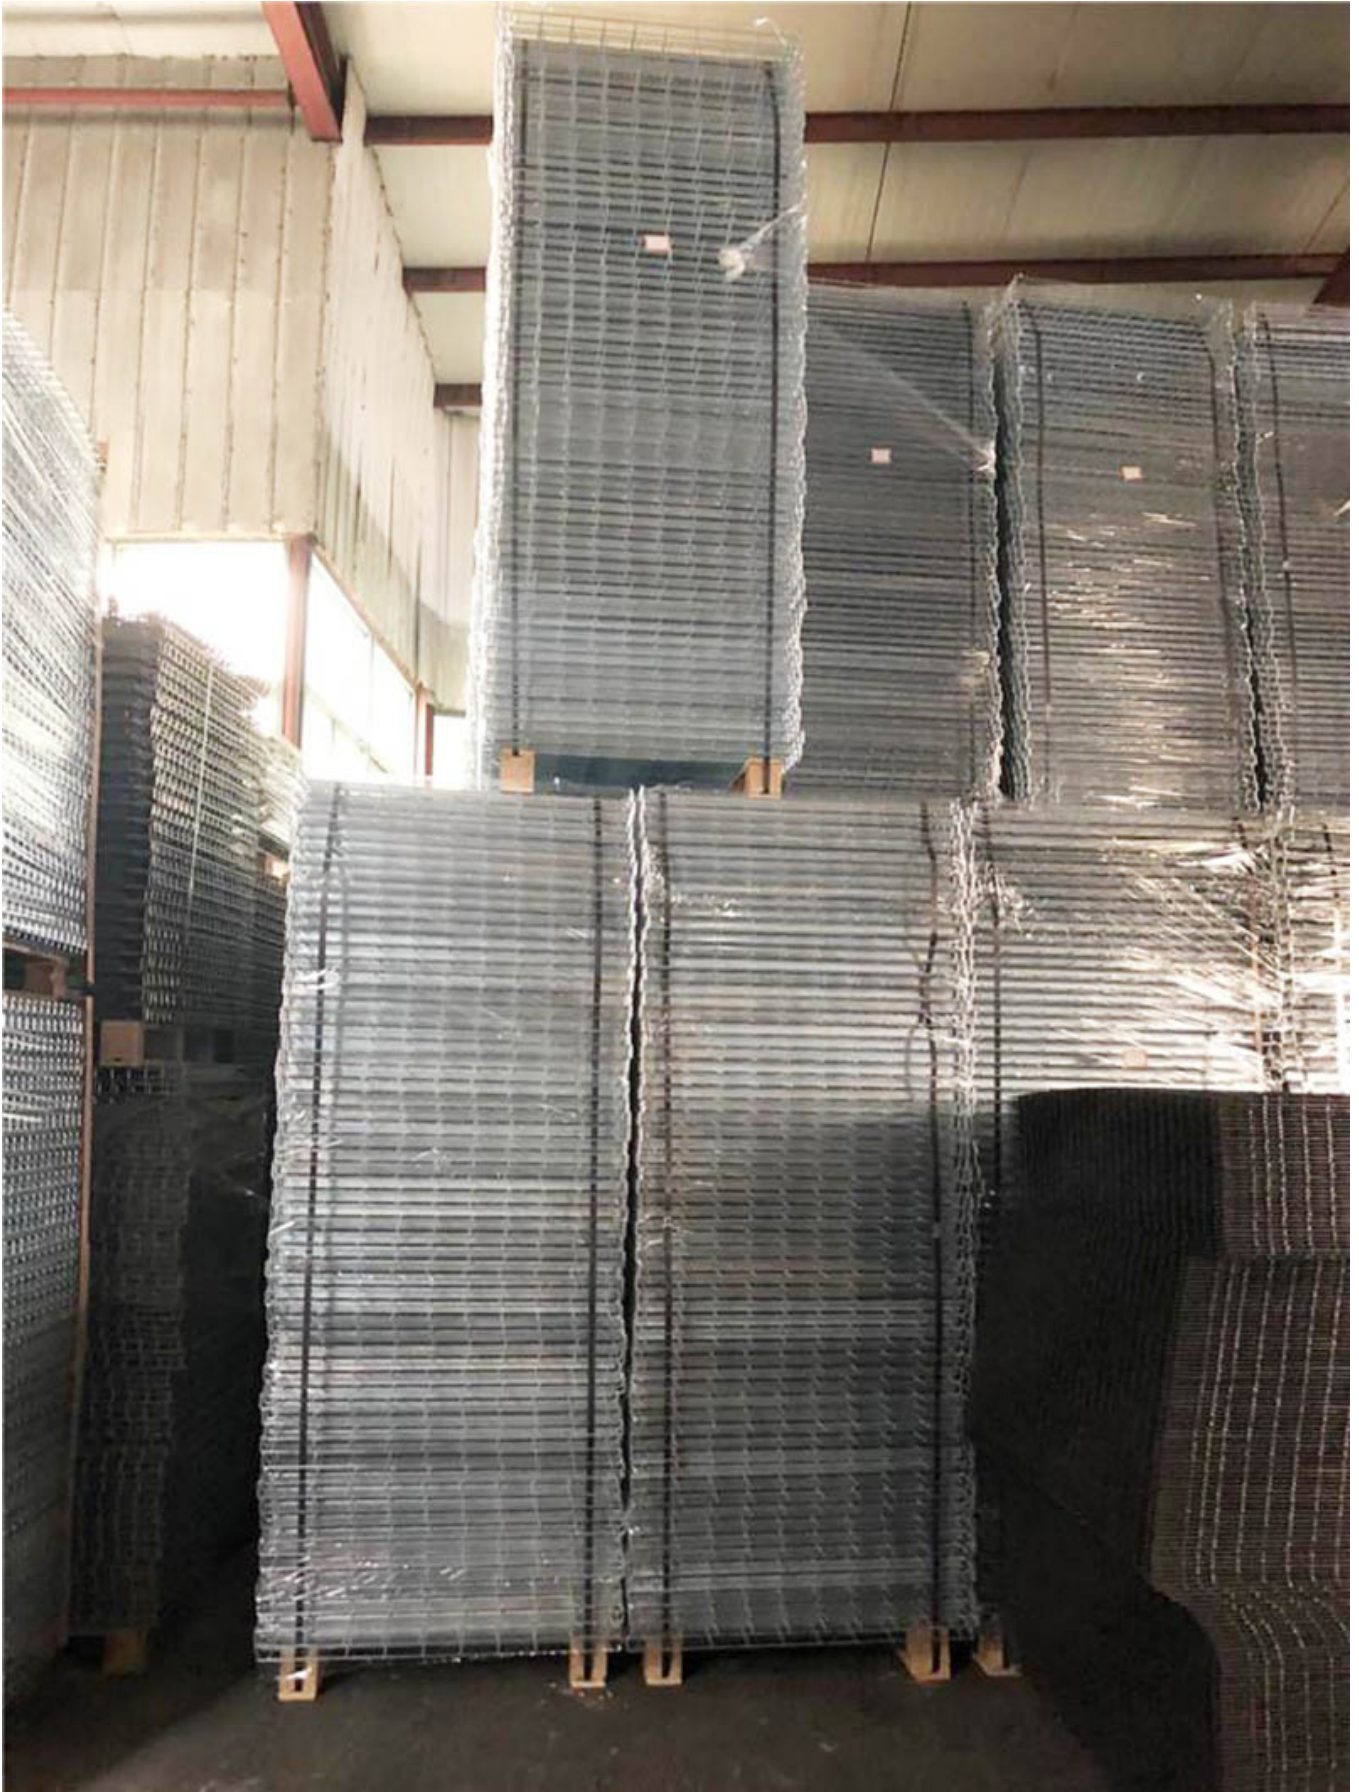

- 1). Visible, easy to manage
- 2). Loading capacity is large, easy to store bulk cargo
- 3). Easy to install, no tools needed, only put it on the beam
- 4). Do not need to put pallet on it
- 5). Strong construction, made from wire rod and strip steel, then welded. The surface treatment is usually zinc-plated or powder coated.

The size is different according to [the pallet rack](#) size. We use different wire diameters and grids according to varying load capacity requirements.

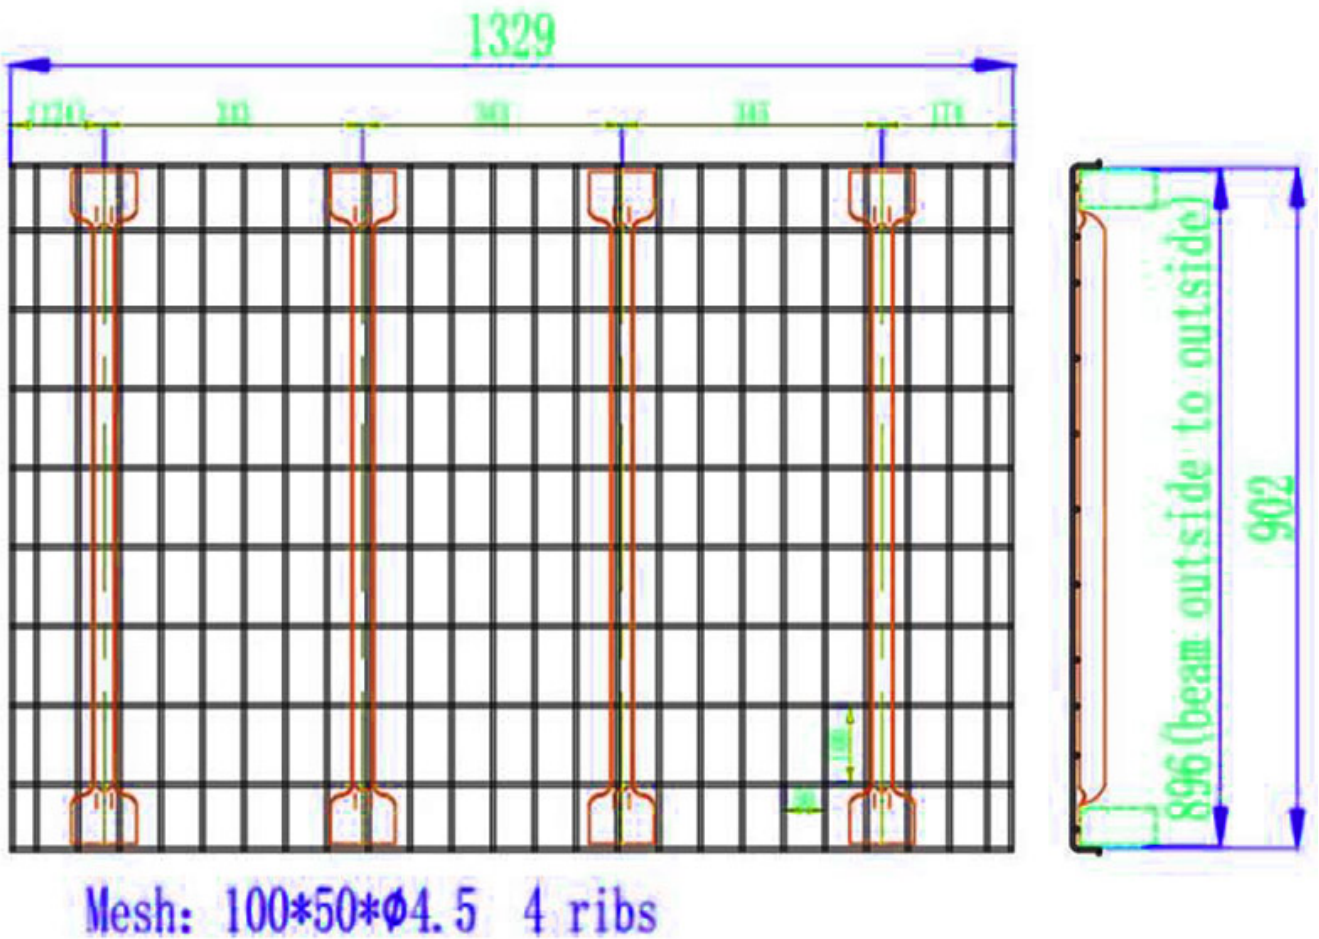

3. Packing and loading:

- 1). Packaging Details: Standard export package. All parts are packed with steel belts and covered by plastic film.
- 2). Shipping Time: 3 weeks after receipt of the 30% deposit

4. Our best service:

- 1), Hand sample is available: If need a sample, please tell us your receiving account number, and we will arrange samples for you.
- 2), Apart from our standard design, we are also able to supply customized products.
- 3), All our products share a one-year quality warranty. Within the quality warranty period, we will be responsible for repairing any damage as long as it is not made manually or by natural calamities. Beyond quality warranty time, we will also do our best to coordinate with customers to repair any damage at our cost price.
